www.molikulegreen.com

With 15 years of experience in the segment of kitchen care, we've got the right expertise in preventive maintenance of kitchens. **Cleanliness that is adorable is our mantra.** Our work is to enable this experience through each product we craft. We are on a mission to make kitchens more liveable and lovable through our cleaning and disinfecting products.

Our products are biodegradable and manufactured with sustainability at its heart. **We constantly research, innovate and continuously upgrade the performance of our products.** They are subjected to umpteen quality checks and are certified for the highest standards of quality and safety. We can be your trusted partner in kitchen care.

Today, the world ranks residences and restaurants by the cleanliness of its Kitchens. Closed-door kitchens in apartments and hotels have given way to open and transparent ones. Kitchen is of prime value not only in terms of realty but also in terms of health and hygiene. There is no better way to promote your restaurant than take guests on a kitchen tour. Your brand identity goes up each time your employees or guests have a positive experience in kitchens and dining areas.

Our product line ensures pesticide-free vegetables; bacteria-free cooking zone; tidy preparation area; clean equipment; sparkling cutlery and crockery. We provide kitchen care products for general and deep cleaning of the front and back of the house. We cater to the needs of residential, commercial, industrial and institutional clients. Kitchen care products at Molikule represent our strong urge to innovate and excel.

A truly world-class experience awaits you at Molikule green care.

Our Core Values

Collaboration

We need futuristic ideas in solving tomorrow's challenges that face our global clientele. We pool in the expertise from multi-disciplinary fields and collaborate to serve our clients better.

Compassion

We treat people with respect and kindness simply because it feels good and we want the goodness to be with all of us.

Sustainable Practice

We commit ourselves to create products that are friends of nature and help the blue planet breathe better.

Customer Focus

We develop relationships that make a positive difference in our customers businesses and personal lives.

Knowledge

We believe in creating an ecosystem of learning and sharing; building a knowledge bank that benefits our employees and customers.

Integrity

We have no price on integrity. We hold it as our highest virtue and as the bedrock of our organisation.

Citro- DishWash Gel

The dish wash gel rapidly dissolves the food particles; deep fried oil stains sticking on the surfaces of utensils and removes them without much effort. Citro-dish wash gel is suitable for any stainless steel, aluminium, copper kitchen utensils or plastic cookware. It is biodegradable and environmentally friendly.

Area of Application

All kinds of dishes, Stainless steel, aluminium, copper utensils and also plastic ware.

Key Benefits

- Removes all kinds of stains and odour
- Removes burnt-food stains, sticky deposits
- Quick action formula, reduces water consumption and saves time
- Suitable for both Manual and Dish washer
- Sparkling shine on all metal surfaces

Application procedure

- 10 ml is enough to clean more than 10 utensils
- Dilute 50-100 ml in 1 litre water
- Apply diluted solution Use suitable scrubber
- Rinse with running tap water
- Can clean Sink too

Heavy Duty multipurpose Degreaser

Our Heavy duty multi-purpose degreaser can be used on all surfaces including crockery and cutlery in the kitchen. This liquid degreaser is designed for a quick and easy cleaning of tough dirt and grease leaving a streak-free surface. This is a general purpose cleaner for all areas of the kitchen. This is also biodegradable and sustainable.

Area of Application

- stove tops, table tops
- Counter tops, Sinks, chimney, exhaust fans

- Contains no abrasives or chlorine
- Suitable for end of the day deep cleaning of the kitchen

Application procedure

- Spray and wipe on required spots
- Take 100 ml in 1 litre water for deep cleansing

Neem / Lemon Grass Hand Wash - Hand Wash Gel

We recommend the use of the hand wash gel every time before food preparation, after coming into contact with the trash and after cleaning. Hand washing removes the dirt, soil, microbes and chemicals in the hands.

Hand sanitizers and Hand wash gels are for different purposes and can't be interchangeably used. It needs to be understood that is too dangerous to have hand sanitizers in kitchens. They contain 70% of alcohol and are highly flammable. The best and safe practice is to have a hand wash gel in all kitchens.

Area of Application

- Guest Areas
- Restaurants and Kitchens
- Offices and Rest rooms

Key Benefits

- Removes oily and grease stain
- Rinses off and kills germs
- Natural ingredients
- Skin friendly PH for frequent use
- 2 Variants -Lemon Grass/Neem Extract

Application procedure

- Few drops on wet hand and then rub and rinse

Vegetable & Fruit Wash

Vegetables and Fruits need to be washed and dried twice. Once, as soon as you receive them and then just before food preparation. The first wash is to ensure the residual pesticides on their surfaces get washed off properly. While the second wash is to remove the dust or bacteria sticking on their surfaces. Our vegetable and fruit wash is made of food safe chemicals and are extremely safe and effective.

Area of Application

- All kinds of fruits and Vegetable

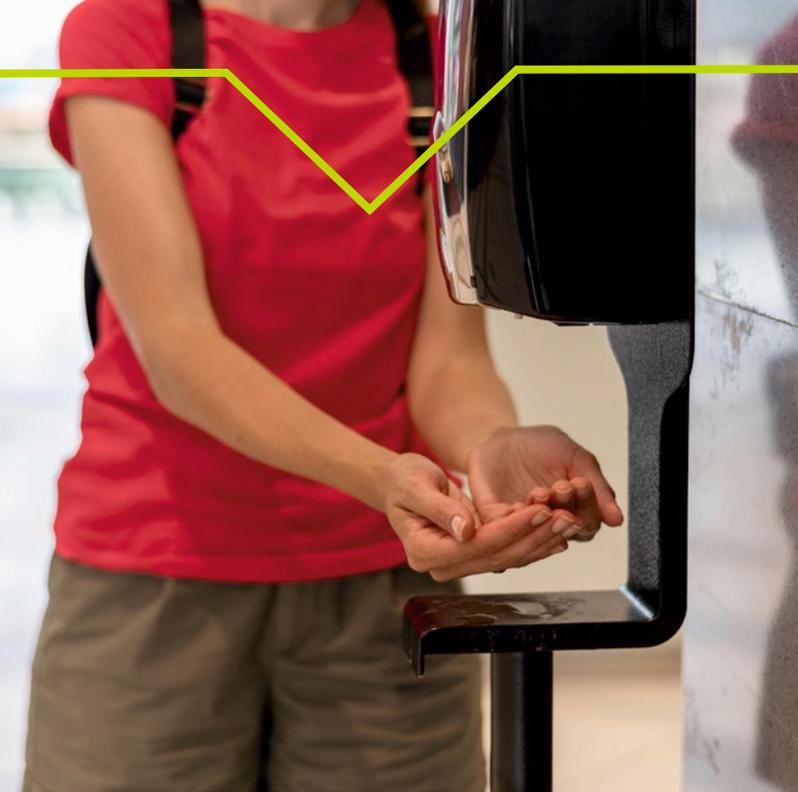

Key Benefits

- Removes pesticides
- Removes wax/oil coating if any
- Removes soils and kills germs and bacteria
- Food grade ingredients

Application procedure

- 20-50 ml in 1 litre water
- Soak all the vegetables and fruits for 5-10 minutes
- Rinse with water/Hot water if required

Hand Rub

Hand rub kills the 99.99% of virus and bacteria, when it is rubbed into the dry skin. They contain about 70% of alcohol and are flammable. Care needs to be taken to completely ensure the hand is totally dry before getting closer to fire. Our Hand rub is very effective and come with a nozzle which dispenses just about 1ml. When the 30 seconds rule is followed and the hand is sanitised you can have complete peace of mind.

Area of Application

- Hands

Key Benefits

- 70% alcohol based Sanitizer
- No residual deposits
- Kills germs and bacteria
- Quick drying

Application procedure

- Apply few drops
- Spread uniformly front and back of palm and fingers
- Let it dry

**Apply the product
on your palms**

**Rub hands
together**

**Apply on all surface
until dry**
